

Chapter 4-2

"I've decided." Liang Shi said: "I want to stay here."

【Okay.】

"How do I obtain luck points? Be specific." Liang Shi asked.

【...Whatever.】

Liang Shi: "?"

【Emotional issues are beyond the scope of this bureau's business, but within three months' time, we will temporarily detain the original. If you cannot obtain 80 luck points within three months, you will disappear as the price for disturbing spatial order.】

Liang Shi: "..."

What kind of system is this? There are pitfalls everywhere!

"Will you give me hints when I obtain luck points? Like plus one, minus one?"

【No, we will give reminders every 20 points.】

After a while, that mechanical voice added: 【We're very busy.】

Liang Shi: "..."

Soon, she felt a strange force surging into her body, a kind of inexplicable lightness.

She called the system again, but there was no response.

Liang Shi had always been someone who adapted to circumstances. When faced with such a major change, she was only dazed for a moment, then went outside for a walk. Walking while thinking about things was her habit.

While walking, she saw strawberries being sold on the street that were large and fresh, so she bought some.

On the way back to the hospital carrying them, she tried hard to recall what the original body had done to Xu Qingzhu, but found she couldn't remember anything.

She could only take it one step at a time.

When she reached the hospital entrance, her phone vibrated. She took it out to look.

It was from an unknown number.

【Coming tonight? I brought a foreign girl.】

【As agreed, bring Xu Qingzhu.】

【Exchange for a day or a week?】

Liang Shi: "..."

Damn!

She knew the original was scummy, but she didn't expect her to be scummy to this extent.

Even wife swapping?

Liang Shi exhaled and directly blocked the person.

Then she casually tied up her hair with the hair tie in her hand, and in the elevator suddenly changed floors, going directly to the tenth floor.

She had to speak frankly with Xu Qingzhu first.

She was different from the original Liang Shi!

A few minutes later, Liang Shi stood at the door of Xu Qingzhu's ward and gently knocked.

A cool voice came through: "Come in."

It seemed Bai Weiwei and Zhao Xuning had already left.

Liang Shi pushed open the door.

In the empty, quiet ward, Xu Qingzhu sat on the bed wearing a hospital gown. Sunlight fell on her face, making her look very fragile, especially likely to trigger people's protective instincts.

Liang Shi gripped the plastic bag, making a rustling sound.

She gently closed the door and said warmly: "Xu Qingzhu, I have something to tell you."

But unexpectedly, when Xu Qingzhu saw what she was carrying, her expression immediately changed, and she directly pressed the emergency button by the bed.

Soon, urgent footsteps could be heard outside the door.

"I won't hurt you." Liang Shi urgently explained: "I've really changed. Can you trust me once? I'm really different from before."

"I'll be very good to you." Liang Shi said: "Give me another chance, I won't let you..."

Before she could say the word "disappointed," the door was forcefully pushed open.

Zhao Xuning's white coat was open, and she was breathing heavily. When she saw the strawberries in Liang Shi's hand, she immediately became angry, "You still dare to bring her these?!"

Liang Shi looked confused, "..."

"Last time you gave her strawberries injected with aphrodisiac drugs, causing her heat period to come early and nearly killing her, and you're doing it again?!" Zhao Xuning threw a punch at Liang Shi, but Liang Shi instinctively dodged.

She had practiced boxing and Muay Thai before, so her physical condition was very good.

But hearing what Zhao Xuning said, her heart was filled with mixed emotions.

She suddenly thought of a lyric: "Building a city-state on ruins."

Now she was the one who had to build a city-state on ruins, and she didn't even have an excavator.

She held up the strawberries to explain: "These are just ordinary strawberries I bought downstairs, with nothing injected. If you don't believe me, I'll eat one to show you."

She took one to eat, when Xu Qingzhu on the bed suddenly screamed.

Like a final wail, pitiful and shrill.

Zhao Xuning was startled and immediately shouted toward the ward door, "Go find Dr. Gu, there's a patient having a PTSD episode here."
