

Chapter 42-2

Yan Si stood inside.

Her eyes swept across the corridor and immediately spotted Yin Lingzhu.

Yin Lingzhu also saw her at first glance, but quickly looked away.

Acting as if she hadn't seen anything.

Si Xin's smile hadn't even fully formed before it was pierced by Yin Lingzhu's action, causing her heart to ache.

Only then did Yan Si notice there were two people standing at the elevator entrance.

She sniffed the air with her nose.

Beneath the familiar snow pear scent, another smell was being covered.

Yan Si immediately understood that Si Xin had come to cause trouble.

Her eyes swept over Si Xin's entire body, then glanced at the person Si Xin was supporting.

Si Xin trembled all over under her gaze.

She quickly pulled the man aside, waiting for the next elevator.

But Yan Si had no intention of letting her off. She actively made room.

"Come in together."

Si Xin was trembling violently and quickly shook her head.

"No, no, no, President Yan, we don't need to. We'll just wait for the next one."

Yan Si raised an eyebrow. "Looking down on me?"

Her mouth carried a smile, and her tone wasn't very heavy, appearing very gentle.

But her eyes emitted a light similar to a venomous snake, inexplicably making people feel chilled.

Si Xin was also frightened by her gaze, her heart trembling. How could she dare refuse?

She quickly walked into the elevator, not caring that the man beside her had an injury on his knee and couldn't keep up with her pace at all.

The man stumbled and stood beside her.

Seeing the two enter, Yan Si's slightly hopeful gaze fell on Yin Lingzhu again, hoping Yin Lingzhu would also come up.

Yin Lingzhu shook her head, decisively refusing.

Seeing this, with many previous experiences, Yan Si now didn't dare to force it.

Her finger lightly pressed, and the elevator door slowly closed, blocking all sight.

In the elevator, Si Xin's eyes were fixed tightly on the numbers, calculating in her mind how much longer it would take to reach the first floor.

Yan Si leaned against the elevator wall. The elevator was a very enclosed environment.

She could now clearly smell another Alpha's pheromone scent.

Yan Si looked up at the man. "Put away your pheromones."

Hearing her words, the man curled his lip. "Who are you? Why should I listen to you?"

He had already suffered enough humiliation. Why should he take attitude from someone he didn't know?

Hearing the man say this, Si Xin's heart almost jumped out of her throat.

She was worried this brother would be afraid and unwilling to come with her, so she hadn't told him the whole story.

She only told him they were going to teach someone a lesson and there would be money involved.

Si Xin didn't dare turn her head to openly observe what Yan Si's expression was like.

She only dared to secretly glance at Yan Si with her eyes.

From her peripheral vision, she could see that Yan Si didn't seem very angry right now.

There were no signs of anger on her face either.

It seemed Yan Si was in a good mood today.

Thinking this way, Si Xin unconsciously relaxed, her body no longer as tense as before.

Yan Si's face showed no expression, she didn't even furrow her brows, but this didn't mean she wasn't angry.

Si Xin coming to find Yin Lingzhu must be because of her blacklisting Si Xin.

Yan Si inconspicuously glanced at Si Xin, who was staring intently at the numbers displayed above the elevator.

However, Yan Si had no intention of asking anything from Si Xin's mouth.

As soon as the elevator door opened, Yan Si walked out unhurriedly. When passing Si Xin, her gaze fell on Si Xin's face for an instant.

Si Xin felt panicked from that one look.

After Yan Si exited the elevator, she didn't go to the film crew but had someone call the lobby manager.

The manager led the way to the monitoring room, with Yan Si following behind.

This hotel was under her name.

And not long ago, she had just upgraded the hotel's surveillance system.

On the monitoring display, Yan Si witnessed the entire process of the incident.

She could hear every sound clearly.

The more she watched, the colder the aura emanating from Yan Si became.

She hadn't expected Si Xin's purpose to be this.

Yan Si enlarged the surveillance footage and saw Si Xin's string of bank card numbers.

She frowned slightly, always feeling that this bank card was problematic.
